CERTIFICATE

OF PARTICIPATION IN THE TRAINING

INTRODUCTION TO PROGRAMMING AND PYTHON

GRANTED TO:

Robert Diak

THE COURSE PROGRAM INCLUDED TRAINING:

- What programming consists of and what to focus on at the beginning
- How much mathematics is there in programming
- Programming languages and the differences between them
- First steps, a sea of information and thousands of traps
- Basic elements of applications
- How to deal with problems – with examples
- The program itself can't do much – interactions with the environment
- What's next, or how to learn and gain experience

CPE/ECE POINTS: 9
